

**A321neo**

## A Brand New Experience Coming from Our Heart

The cabin interior design of China Airlines all-new A321neo, is inspired by eastern aesthetics and the beauty of Taiwan. The spacious seat design and configuration provide high comfort and more engaging travel experiences.

Our cutting-edge technology gives you more personalized services and greatest satisfaction. To keep the cabin air clean at all times, A321neo features the High-Efficiency Particulate Air (HEPA) filter system.

# ENTRYWAY

## Entryway A Great Journey Starts from Here

From the stone and persimmon wood texture of walls, the leaf patterns of curtain to the ocean wave-like patterns of carpets, the design ingenuity is all presenting the beauty of Taiwan.

Especially, the shining butterflies projected on the wall, are the metaphor of good fortune in Chinese homonym. The persimmon wood element, also applied in our NexGen aircraft, is used to symbolize "Persistent Prosperity", greeting everyone to have a wonderful journey.

# — PREMIUM BUSINESS CLASS —

- 180° full-flat ergonomic seating
- 15.6" 4K touchscreen
- Highly personal privacy
- Multifunctional storage space
- Wireless charger
- Individual plug sockets & USB port
- Mirror

## Premium Business Class Comfort and Luxury on Every Flight

A luxurious, comfort flight experience begins with the full-flat 180-degree seats. The seat covers are made from light-gray wool and 3D blue knitted fabric. With a higher seat partition, you can enjoy the most private and relaxing moment.

China Airlines leads the peck to offer wireless charging service, bluetooth connectivity for your earbuds or headphones, and phone pairing for screen control, giving our passengers the most advanced, customized experience on board.

# ECONOMY CLASS

- 18" seat width
- 120° recline
- 13.3" 4K touchscreen
- Four-way adjustable headrest
- Multifunctional Storage Space
- Individual USB port

## Economy Class Slim Seatback : An Enjoyable Travel Experience

The minimalist and modern interior design creates a bright and open visual perception. Even more, China Airlines A321neo features slim seatbacks creating extended pitch between seats, offering more resting space. Four-way adjustable headrests relieve the tension of your neck, providing you with a more comfortable journey.

# ENTERTAINMENT

- Phone/tablet pairing for screen control
- Bluetooth connectivity
- Interactive moving map for kids
